Churn Customers

\$456K

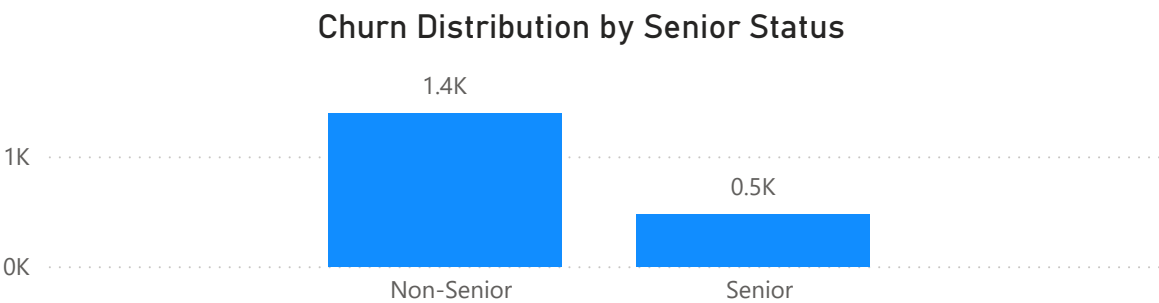

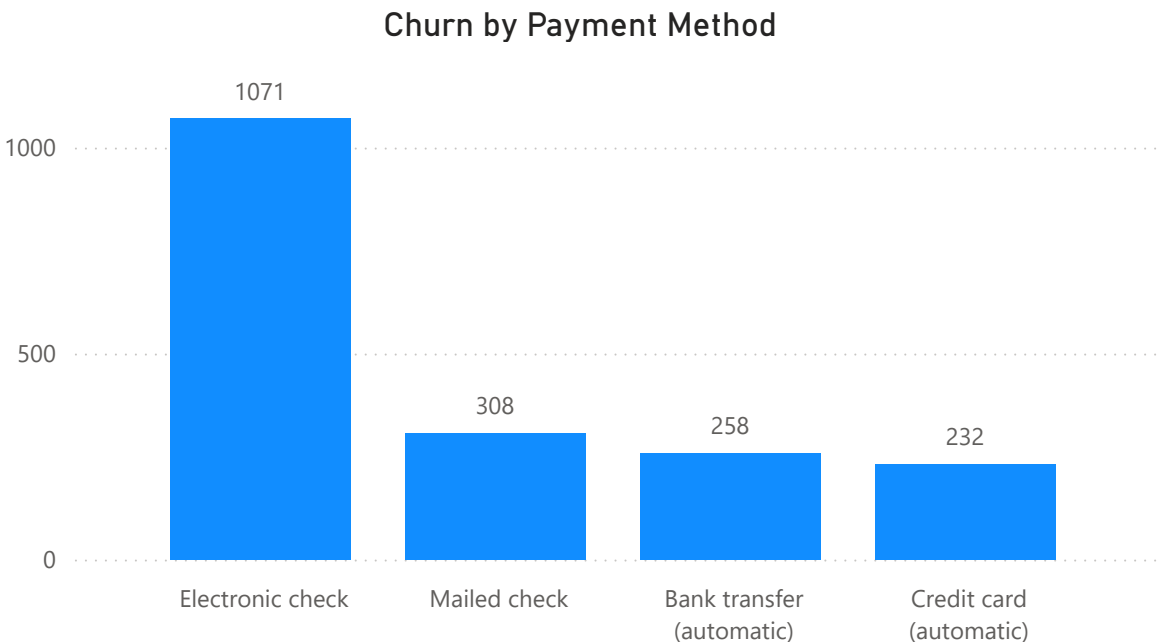

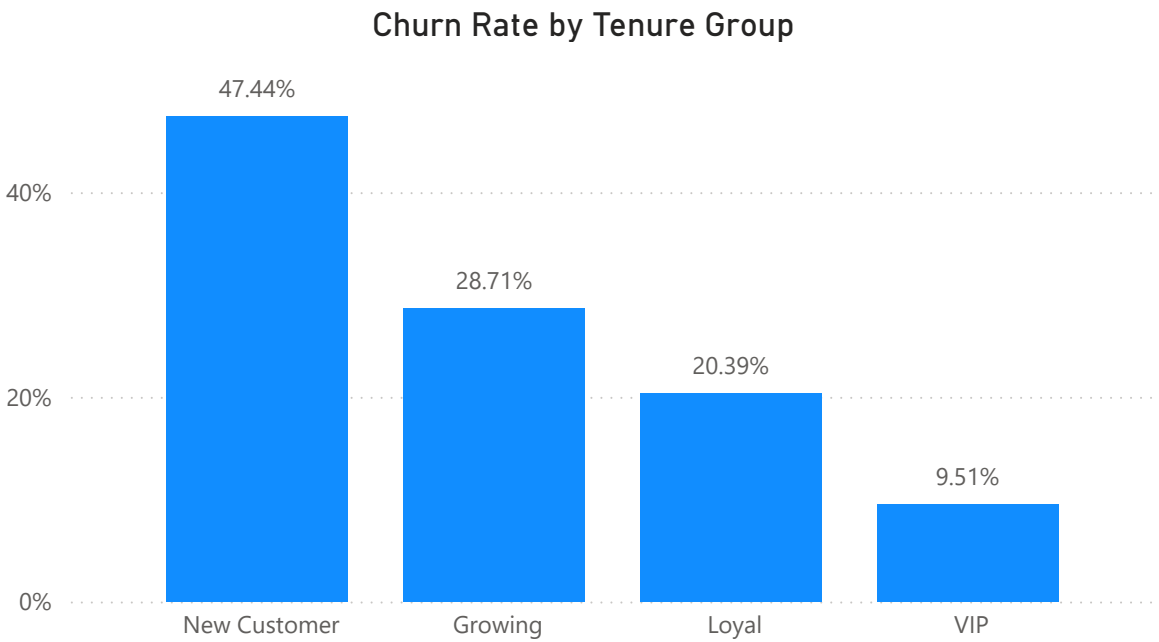

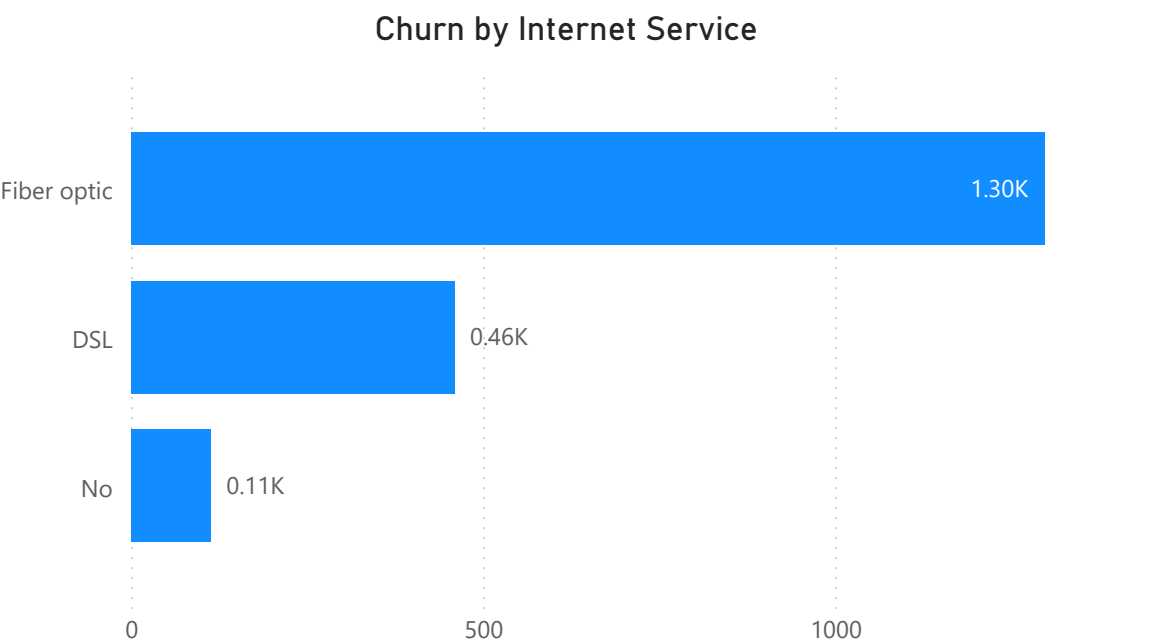

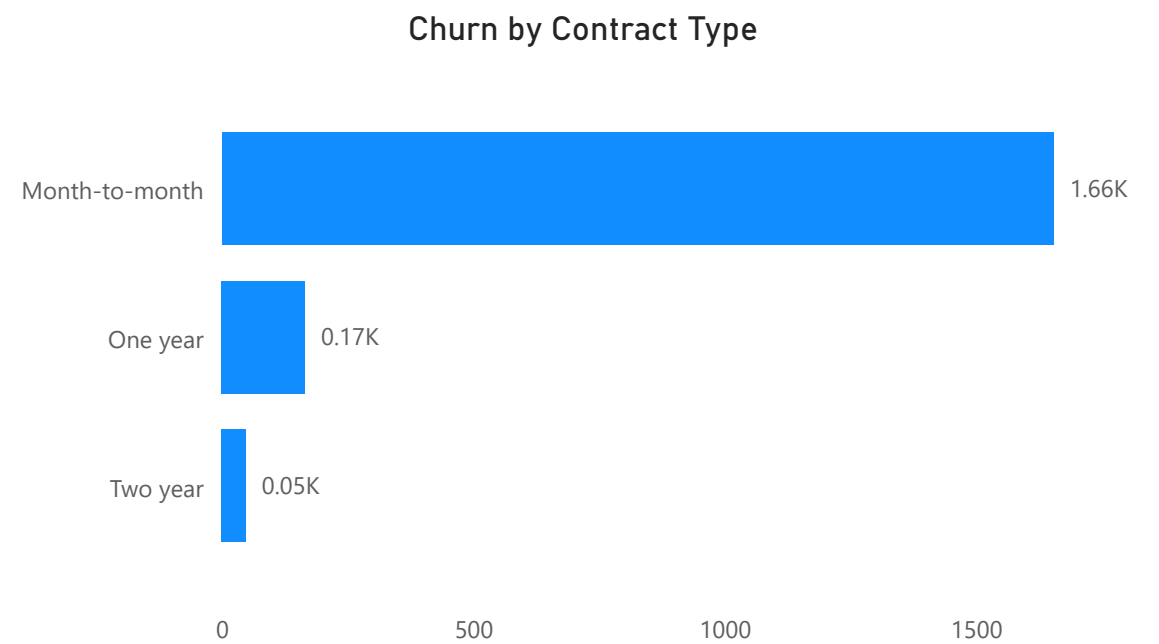

Total Revenue

\$64.76

ARPU

26.54%

Churn Rate

Key Insights:

- Month-to-month contracts drive the highest churn
- Fiber optic users show the largest churn volume
- New customers (<12 months) are most at risk

Recommendation:
Focus retention strategy on month-to-month customers

These patterns suggest early-stage customers and flexible contracts are key churn drivers.
